

# 4th Grade Weekly Goals

Week Of:  
February 28 - March 4

## Math Learning Goals:

- I can review for my Unit 6 Fractions Test.
- I can do my personal best on my Unit 6 Fractions Test.
- I can compare fractions with like denominators or numerators.

## Reading Learning Goals:

- I can identify and describe story elements to build my understanding of my historical fiction book.
- I can track the way characters' timelines fit the historical timeline of my book.
- I can step into characters' shoes and realize how their decisions are shaped by the historical time.
- I can participate in a historical fiction book club to discuss the book I'm reading.

## Writing Learning Goals:

- I can begin researching a new topic (a state) and take notes by drawing a quick sketch with a caption.
- I can use boxes and bullets to record a big idea and supporting facts from my state research.
- I can ask questions about my state and then hunt for answers.

## Science Learning Goals:

- I can describe how potholes form.
- I can notice patterns of natural disasters on maps of the Earth.

## Social-Emotional Learning (SEL):

- I can 'Own It' when I make a mistake.
- I can consider other people's perspectives when there is a conflict.

## Other Information:

- Parent-teacher conferences are coming up next week. If you need a reminder of your scheduled day/time, please let me know. I look forward to meeting with you to discuss your child's progress!
