

4th Grade Weekly Goals

Week Of:
March 21 - 25

Math Learning Goals:

- I can relate fractions to decimals.
- I can identify decimal place value to the hundredths place.
- I can compare decimals.
- I can identify and compare decimals greater than 1.

Reading Learning Goals:

- I can revise the theme of my book as I keep reading more.
- I can analyze different character's perspectives from my historical fiction book.
- I can find thematic connections across different books I've read.
- I can participate in a historical fiction book club to discuss the book I'm reading.

Writing Learning Goals:

- I can revise and edit my state research essay.
- I can publish my essay using Google Slides.

Science Learning Goals:

- I can explain what the scientific method and conduct experiments using the method.

Social-Emotional Learning (SEL):

- I can explain what it means to be an active listener.
- I can paraphrase another person's thoughts.

Other Information:

- Our classes recently finished reading the book *Wonder*. It's a heart-warming book with an underlying message about the importance of being kind to others. As a fun follow-up activity, we are planning to watch the *Wonder* movie on March 30. We want you aware that the movie is rated PG. Here is the link to the Common Sense Media review about the movie so you can learn more about it: [Wonder Movie](#) If you would prefer that your child not watch the movie, please let us know in advance and we will plan another activity for your child to do. Thank you!
- We will have a fun Reading Spirit Week the last week before Spring Break. Please see the attached schedule for our fun days!
