

4th Grade Weekly Goals

Week Of:
November 8 - 12

Math Learning Goals:

- I can use the area model, expanded notation, algebraic notation, or the shortcut method to multiply.
- I can solve word problems involving multiplication.
- I can do my personal best on my Unit 2 multiplication test.

Reading Learning Goals:

- I can go back and re-read my non-fiction book when I am confused.
- I can set my own non-fiction reading goals.
- I can look for the main idea by reading through the start of my book and the text features.

Writing Learning Goals:

- I can write my opinion statement and plan my supporting reasons (evidence).
- I can draft a strong opinion for my opinion essay.
- I can draft my first supporting reason for my opinion essay.

Science Learning Goals:

- I can describe how organisms detect, process, and use information about the environment.

Social-Emotional Learning (SEL):

- I can recognize what it looks like, sounds like, and feels like to be envious.
- I can describe how to be an up-stander and not just a bystander.

Other Information:

- Parent-teacher conferences are coming up on November 16 and 18. Look for a sign up email link to be sent home soon.
- If you are willing to donate granola bars or small snacks to our classroom, I'd appreciate it. I like to have some extra snacks available for in case a child forgets a snack. Thanks for your help!
