

4th Grade Weekly Goals

Week Of:
September 20 - 24

Math Learning Goals:

- I can solve multi-digit subtraction problems.
- I can understand that subtraction and addition are inverse operations.
- I can solve single or multi-step word problems.

Reading Learning Goals:

- I can notice what characters do or say and notice what that reveals about the character.
- I can pay attention to details in the story and think about what that tells me about the character.
- I can notice what the author repeats in my story and think about why it's often repeated.

Writing Learning Goals:

- I can write a strong lead and ending for my personal narrative.
- I can use complete sentences as I write (no run-ons!).
- I can properly use paragraphs in my personal narrative.
- I can revise and edit my personal narrative.

Science Learning Goals:

- I can describe how the structures of plants support survival.

Social-Emotional Learning (SEL):

- I can work with my class to create a Class Charter (agreement for how we want to feel and treat others).

Other Information:

- School Picture Day is scheduled for Thursday, September 30.
- The PTC planned a Spirit Week for the week of Homecoming. See the emailed flyer for information.
